

HD-PNFU3

1TB

2TB

Compact and well-designed shockproof chassis protects your valuable data

■ Slim Body (Size Down Compared with HD-PNTU3)

The MiniStation's stylish exterior, with its flat design and attractive matte finish, made it the winner of the 2013 Good Design Award. Available in six vibrant colors—select the color that suits your own taste. The optimized design matches chassis thickness to the drive's storage capacity, with no wasted space. This results in a compact size that makes even the high-capacity models convenient to carry.

*Compared with the HD-PNTU3 (500 GB model). 2TB model available only in black.

■ Shock Proof Body

Since a portable hard drive is designed to be frequently carried around, the risk of dropping it is unavoidable. This MiniStation features a shockproof chassis the protects the drive from damage if it's accidentally dropped. The chassis incorporates a shock-absorbing frame (with plate springs) and total of eight silicon shock dampeners (two in each of the four corners) to provide the drive with secure protection.

Windows® 8.1 support

■ Drive Lock and SW Encryption

Built in Pass Lock Drive function that lock portable HDD. You can not access to HDD unless you put password. This function only lock HDD and do not have HW encryption.

What you can do with unlock application
unlock/ invalid lock function > change password > initialization
